The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Impacts of the adoption of the amended HKFRSs are discussed below:

Amendments to HKAS 16 “Property, plant and equipment: Proceeds before intended use”

The amendments prohibit an entity from deducting the proceeds from selling items produced before that asset is available for use from the cost of an item of property, plant and equipment. Instead, the sales proceeds and the related costs should be included in profit and loss. The amendments do not have a material impact on these financial statements as the Group does not sell items produced before an item of property, plant and equipment is available for use.

Amendments to HKAS 37 “Provisions, contingent liabilities and contingent assets: Onerous contracts – cost of fulfilling a contract”

The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

Previously, the Group included only incremental costs when determining whether a contract was onerous. In accordance with the transitional provisions, the Group has applied the new accounting policy to contracts for which it had not yet fulfilled all its obligations at 1 April 2022, and has concluded that none of them is onerous.

4. OPERATING SEGMENT

An operating segment is a component of the Group that is engaged in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal management reporting information that is provided to and regularly reviewed by the Group's chief operating decision maker in order to allocate resources and assess performance of the segment. During the Period, the information reported to the executive Directors, who are the chief operating decision makers for the purpose of resource allocation and assessment of performance, does not contain profit or loss information of each product line or geographical area and the executive Directors reviewed the financial results of the Group as a whole reported under HKFRSs.

The Group currently has one operating segment which is revenue from sale of the Pre-paid Products. Accordingly, the Group does not have separate reportable segments.

As all the Group's operations and non-current assets are located in Hong Kong, there is no geographical analysis.
